

Output of the Project

Step 1: Open Network Request Form

User opens the **Network Request** catalog item in ServiceNow Service Portal.

Step 2: Enter Required Details

User fills the form fields:

- User Name
- Email
- Request Type
- Description

Step 3: Submit the Request

User clicks **Order Now** to proceed.

Step 4: Confirm the Request

Order confirmation popup appears.

User verifies details and clicks **Checkout**.

Step 5: Request is Created

System generates a **Request ID** and stores the request.

Step 6: View Request Summary

User is redirected to the **Request Summary page**.

Step 7: Check Request Status

The request is shown with status:

Request Approval

Final Step

Request is successfully submitted and sent for approval.
